Actionair Fishing Day 16 October 2009

This Years Winner David Orsler
Of King Ass .
With a Rainbow Trout of 13 lbs

Runner Up Martin Park Of Waterman Gore
With a Rainbow Trout of 12lb 11oz

This years Actionair Fly Fishing event was once again an incredible day. It is becoming for me a test of faith in rolling out another day of good company good fishing and good weather, with a little food and drink thrown in. Luckily the gods were with us again this year, the early morning was again wet but as has often been the case, by the time we were ready to start fishing, the sun came out. Over thirty people from the HVAC industry turned up this year for a days fly fishing at Norfolk's Narborough Mill fishing lakes; some were experts and some who had never picked up a fishing rod before. I should like to thank Reg Petch who was on hand again this year to give casting instruction to those who needed it and James Webber who did a great job with the photography. The day started with a flurry of big fish with Martin Park of Waterman Gore landing an enormous rainbow of 12lb 11oz.

The fishing was not easy but big fish after big fish being landed. Graham Cooper one of the Actionair team caught the biggest Brown Trout of his life a 6 lb beautiful full finned fish. As the day progressed the weather became windy with a chill to it, this made the fishing more challenging and although good fish were still being caught it was getting late in the afternoon so at three thirty I called an end to the fishing, at the weigh in it was tight as to who had won the Dave Lowe Trophy for the biggest fish., In the end only by a couple of ounces David Orsler of King Ass won with a rainbow trout of 13 lbs.

What was nice this year was that one of the guests who had never been before put themselves out to come and tell me personally that it was one of the best events he had been to; it is always nice to know that the work that you put in is appreciated. Everyone went home happy either with a fish for their dinner or a great story of the one that got away.

If the financial climate allows it I should like to think we will do it again next year so thanks to you all for making it a great day good luck and tight lines to you all. **John Webber**
