SmokeShield Classification and Test Report Summary	5
Background	6
Requirements	6
Building Regulations	6
England & Wales	6
Scotland.....	7
Standards	7
Fire damper Standards.....	7
Related and system design and related standards.....	7
Certification Standards	7
Extended fields of application (Assessments)	7
Ductwork (Fire classified and smoke control systems classified).....	8
Fire rated duct	8
Smoke Control	8
Smoke Control Dampers	8
Current smoke control draft standards	8
Installation methods	9
Damper - Horizontal in floor slab (SS +IF).....	10
Health and safety.....	10
Damper installation method.....	10
Actuator fitting.....	10
Commissioning	10
Periodic maintenance.....	10
Damper Vertical in blockwork wall [1] (SS +IF)	12
Health and safety.....	12
Damper installation method.....	12
Actuator fitting.....	12
Commissioning	12
Periodic maintenance.....	12
Damper - Vertical in blockwork wall [2] (SS +IF)	14
Health and safety.....	14
Damper installation method.....	14
Actuator fitting.....	14
Commissioning	14
Periodic maintenance.....	14
Damper - Vertical in existing drywall partition (SS + DWFX-F)	16
Health and safety.....	16
Damper installation method.....	16
Actuator fitting.....	16
Commissioning	16
Periodic maintenance.....	16
Damper - Vertical for enclosure by drywall partition (SS + DWFX-C)	18
Health and safety.....	18
Damper installation method.....	18
Actuator fitting.....	18
Commissioning	18
Periodic maintenance.....	18
Damper - Vertical for fitting to the outside of a concrete/blockwork wall - (SS + Top and bottom flange).....	20
Health and safety.....	20
Damper installation method.....	20
Actuator fitting.....	20
Commissioning	20
Periodic maintenance.....	20
Appendix	22
Actionair Photo Storyboard 1: Damper Vertical in blockwork wall (+IF)	22
Actionair Photo Storyboard 2: Damper vertical for fixing in an existing drywall partition (+DWFX-F)	23
Actionair Photo Storyboard 3: Damper vertical for enclosure in a drywall partition (+DWFX-C)	29
